I'm a critical and playful designer interested in the relationship between humans and technologies.
I'm interested in rethinking the way humans interact, the materials we use and think critically where all our technologies are taking us.

EXPERIENCE

Graphic Designer & Research Assistant, Nelly Ben Hayoun Studios ; London June 2016 - March 2017

As a freelancer I've assisted as researcher for a different projects and was also involved in conceptualizing it. Furthermore involved in designing the conceptual visualization for a 30 min animation and other graphic design work.

Set assistant & Research Assistant, Lucy McRae; London April - May + October 2016

Assisted with production of the Zero Gravity simulator for Lucy McRae's project: The Institute of Isolation. Also helped on set during different shoots. Furthermore involved in the theoretical and hands on R&D for a workshop and presentation on the future of health.

Sales Assistant, Camper; London Jan - July 2016

Sales at the keystore on Carnaby street. Part of a strong team where we all had great responsibility. Camper focuses on comfort and novelty in their footwear designs.

Assistant, Centre for Sustainable Fashion; London Oct 2015

Assisting with various tasks. Doing transcripts on the effect of sustainability modules and on the Antarctica project.

Research Assistant, Fashionfutures.org + TU/e; Eindhoven Feb - July 2015

I functioned as an assistant researching scenarios, materials, setting up a user feedback session, designing graphics and communicating between the parties.

- Internship, Studio Bradley Rothenberg; New York** Oct 2014 - Jan 2015
 Modelled and designed a 3D printed textile collection. Researched developing 3D printed viscoelastic sports padding and designed 3D printable garments.
- Waitress/Bartender, Hoogste Tijd; Eindhoven** March 2013 - April 2014
 I worked as a waitress serving dinner and during the nights I also work as bartender.
- Student Mentor, Technical University Eindhoven; Eindhoven** Sept - Dec 2013
 Introduced 10 first year students to the Industrial Design system and shared my experiences.
-
